

Year 6

W.B 8th June

Dear Year 6 and parents/carers,

We cannot believe how quickly the weeks are going and at the end of this week, we welcome back to school some of our year 6 children. We are very much looking forward to seeing you.

This week, we have uploaded English and Maths work onto the website and we will continue to do this for children who will still be working at home. You will still be able to have access to all of the usual websites to support your learning.

We hope that you saw the letter on the home learning page about 'Den Day' that supports the charity- Save the Children. We know that Finley did because he sent us a video of his little brother inside the den that he had built. You can still plan and build your den and we would love to see photographs of your creations.

Bradley continues to be working hard and here is a photograph of his concentration face.

Well done Abigail for the maths work that you have been emailing over and for continuing to go on TTRS. Well done Alfie for your participation on TTRS too.

Great English work Bradley! Good colour-coordinated highlighting!

Fantastic grammar work George! You did a really good job of using formal and informal language.

Our next Discovery Quest topic is going to be the Mayans, so feel free to get a head start on anything you can find out about them before the start of the topic and share it with us!

We will still be able to answer questions/concerns via email and we will still like you to email, to us, work that has been completed and any other creative things that you have been doing.

We hope you are all staying safe and enjoying the family time.
All the best,

Miss Oliver and Miss Stewart
